EPA Project Manager, Superfund Program  
US Environmental Protection Agency  
75 Hawthorne Street  
San Francisco, CA 94105-3901

Re: United Heckathorn Superfund Site Consent Decree, Levin Group RD/RA

Dear Mr. Vesperman:

Enclosed for your review and approval is a preliminary landscape plan for the northerly area along Cutting Boulevard. LRTC wishes to remove the existing fence at the northerly property line and replace the existing trees with new landscaping. There will be a drip system for irrigation. The existing fence will be replaced with a new eight foot chain-link fence with slats. Please respond as soon as possible so that LRTC can proceed with City of Richmond design review.

Regards,

Mike McCoy  
Project Coordinator
